

Dear Potential Sponsor,

I hope this message finds you well. As a member of Hudson Robotics, Team 4295 Hudson Stingers, I wanted to reach out to you on behalf of our team. We are a thirteen-year-old team representing *FIRST* Robotics, a globally recognized high-school organization that releases an annual game in which teams must build a robot to accomplish a certain task. Our team has seen a massive increase in both team members and mentors since it was founded in 2012, and we have steadily risen in global rankings in competitions.

We believe that hands-on learning is the key to success in this field, and we strive to provide our team members with a firm grasp of engineering, programming, project management, marketing, and business skills. Through our program, we hope to inspire the next generation of engineers, technicians, entrepreneurs, innovators, and creators of the future.

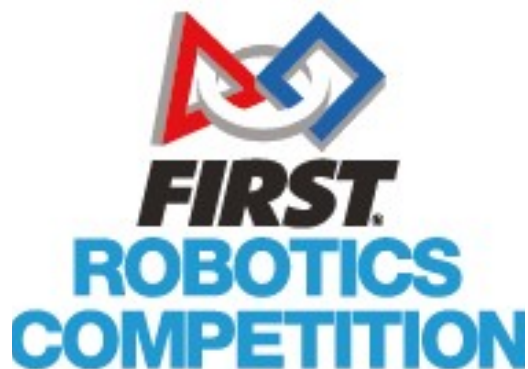

However, in order to achieve our goals and educate our team members, we need your help. We need a total of \$24,000 to pay for food, transportation, hotels, and entry fees into the much-anticipated district competitions. Our sponsorship benefit packages start as low as \$100, and with your donation, you or your company could receive recognition on our website and social media, team shirts, and our robot. Not only that, but you will also have the personal satisfaction of fueling our success.

Thank you for considering sponsoring our team. We appreciate your support in our efforts to provide a better future for the next generation.

Sincerely,

Team 4295: Hudson Stingers

Hudson High School

FIRST TEAM 4295

HUDSON HIGH SCHOOL

2024 SPONSORSHIP PACKET

CRESCENDOSM

PRESENTED BY  **HHS**
Gene Haas Foundation

TEAM BUDGET

Expenditure	Cost
Registration Fee	\$6,000.00
Travel/Meals for Students	\$4,000.00
Parts/Tools	\$13,500.00
Team Shirts	\$500.00
Student Letter Jackets	\$600.00
TOTAL:	\$24,000.00

Additional Opportunities for Support Mentors

CAD	Teach students on the team how to CAD
Electrical	Show students how to wire, organize an electrical board, and update and check the robot
Engineering Design	Work with the team to pick a strategy, design a robot, and manage robot creation
